8 .CHILD MANAGEMENT / DISCIPLINE

In order to ensure a safe, secure and healthy environment for all members the Boys and Girls Club has developed a Code of Conduct. In an effort to provide consistency in the lives of members, the staff of Boys and Girls Club supports and follows this code of conduct. It is our goal at the Boys and Girls Club to help children work through issues and problems in a constructive positive manner. Helping children understand what they could have done differently in any given situation provides them with the tools to make better choices in the future. When an incident occurs between two children, staff are to act as a facilitator to encourage the children to work out the issue using our problem solving model.

Problem Solving Model

Step 1:

Bring both children together. Allow each child to explain what they feel has happened without interruption.

Step 2:

Ask questions of the children to gain a better understanding of the situation. Repeat the story back to the children. Explain to the children within the story what each other was thinking at the time.

Step 3:

Ask them is there anything they could have done differently. If they cannot identify any changes go back through the story stopping at points in which you are able to ask the question again.

Step 4:

Work with the children to find a solution that both parties can agree on. It does not always have to be "sorry". The children will brainstorm some ideas. What we might think will fix the problem may not always be what they want.

The problem solving model will be used by staff and members to defuse most situations that occur at the Club.

Incident Reports

When an incident happens at the Club that requires Parent/Guardian notification, a written incident report will be composed by staff, that will be reviewed by a supervisor and then given to a parent/guardian to sign. The Boys and Girls Club strives to create a positive environment for all our members. Inappropriate behavior will be addressed and a range of proactive interventions will be used to promote positive behavior. Consequences will be appropriate for each individual member and will consider factors that include the member's age; stage of development; special needs; social/emotional needs; and level of cognitive functioning, etc. Consequences will also reflect the frequency, severity, and intensity of the inappropriate behavior.

When unacceptable behavior leads to:

Intentional Damage:

Committed against the Club or property of the club by any member will result in a suspension . If serious vandalism occurs police will be notified.

Alcohol/ Drugs:

Any member suspected of being under the influence of alcohol or drugs while participating in Club programs or on Club property will have a Parent/Guardian notified immediately. If a parent/guardian cannot be reached the police will be notified immediately.

Stealing:

Any member caught stealing from the club or another member will be suspended from the Club.

Physical Violence:

Physical violence is not tolerated at the Club. Any member or Parent/Guardian who intentionally inflicts physical harm upon another member, staff ,volunteer or parent/guardian will be suspended from the Club. If aggressive behavior continues members will be removed from the program until it is deemed appropriate by Program Lead for the member to re-enter the program.
